

Mechanical Property Testing

INTRODUCTION

MPM manufactures mechanical property test machines and can perform routine mechanical property tests on a fee basis. In addition, MPM operates at the state-of-the-art in mechanical property test development. MPM has developed several new test procedures including miniature Charpy specimen testing, beverage can testing, and miniature disk bend testing.

MECHANICAL PROPERTY DETERMINATION

MPM has a broad range of mechanical property test capabilities including the following:

- Charpy/Izod impact testing
- Fracture toughness testing
- Tensile testing
- Fatigue testing
- Creep rupture/creep crack growth
- Miniaturized Charpy, tensile, fatigue, and fracture toughness
- Shock testing
- Indentation
- Corrosion testing
